WORK EXPERIENCE

UI/UX Designer & Front-End Engineer

Sep 2023 - Present

Quote Kong • Ontario, Canada

- Proficiently design wireframes and develop low and high-fidelity prototypes using Figma.
- Actively contribute to building and maintaining the company's design system, ensuring consistency across products.
- Conduct usability tests to enhance user experiences and identify areas for improvement.
- Translate UI designs from Figma into responsive, cross-compatible front-end code using React, Tailwind CSS, and TypeScript.
- Work closely with back-end developers and other team members to optimize usability and functionality.

Product Designer

July 2022 - June 2023

MoveBricks • Lagos

- Conducted user research to understand user needs, preferences, and pain points, informing the design process.
- Spearheaded the creation and redesign of digital real estate portfolios for clients, enhancing their promotional and sales strategies, while ensuring achievement of key deliverable milestones.
- Presented design concepts and decisions to stakeholders, incorporating their feedback into the design process.
- Collaborated with marketing teams to develop compelling product narratives.

Full-Stack Developer

Sep 2020 - May 2022

Freelance • Lagos

- Designed and developed user-friendly website to ensure high traffic, page views, and user experience to reduce bounce rate by 56%, resulting in 42% increase of sales revenue.
- Devised SEO strategies based around specific keywords.

- Managed several SQL and no-SQL databases using MySQL and MongoDB.
- Added new features to an ecommerce web app, resulting in a 52% increase in user experience scores.
- Developed concepts, controlled project flow and ensured deliverable milestones were met.
- Followed up on unresolved issues and escalated critical incidents to the appropriate teams.
- Built single-page websites and full-stack web applications using WordPress, PHP and Node.js

Junior Web Developer

May 2019 - Aug 2020

Trails • Abuja

- Translated designs to front-end code, while working with cross-functional team to define and develop product roadmaps.
- Developed, redesigned, and maintained front-end functionality of a business website with high user-engagement using UI/UX Design best practice HTML, CSS and JavaScript to reduce bounce rate by 45.6% in 3 months.
- Implemented process improvement which led to increase in site conversions and user interaction.
